

# Psychological Services for Children

## Helping your child overcome their challenges

Our highly skilled psychologists can assess, treat and support your child to:

- Improve their wellbeing and development
- Improve emotional, social or behavioural difficulties including anxiety, depression, ADHD or conduct problems
- Reduce their distress
- Assist parents, school staff and others supporting a child

We see families with children 12 years and under. An EMPHN referral form and treatment plan needs to be completed by your GP, psychiatrist or paediatrician, to receive up to 12 sessions at no cost.

## Appointments available at:

Link Health and Community

2 Euneva Avenue  
Glen Waverley, OR
