

Meet Michelle, your Credentialled Diabetes Nurse Educator

Michelle has over 18 years' experience in diabetes education and can help your clients manage their type 1 or 2 diabetes, including medication advice and blood glucose monitoring.

She can also teach insulin initiation and titration.

She has a special interest in gestational diabetes and the management of type 1 or 2 diabetes during pregnancy.

Meet Preethi, your Credentialled Diabetes Nurse Educator

Preethi has extensive experience in assisting clients with pre-diabetes, type 1 and 2 diabetes and LADA. She can teach insulin initiation and titration and non-insulin injectable management.

Preethi also has recent experience on a project with University of Melbourne collaborating with GPs to assist people with type 2 diabetes, including insulin management.

Preethi volunteers in the local community and with a medical aid team. She speaks Sinhalese.
